<a href="#">G/SPS/N/BHR/221</a> 25/11/21	Bahrain, Kingdom of	<i>Flavoured drinks (ICS Code: 67.160.20)</i> <b>ICS codes: 67.160.20 (Non-alcoholic beverages);</b> <b>The Kingdom of Saudi Arabia/The Cooperation Council for the Arab States of the Gulf draft Technical Regulation for "Carbonated Beverages"</b> This draft technical regulation applies to carbonated beverages and carbonated water (soda water) (sparkling water). This draft includes a safety and labelling requirements for carbonated beverages and carbonated water.	24/01/22
<a href="#">G/SPS/N/EU/515</a> 23/11/21	European Union	<i>Sulfoxaflor (pesticide active substance); Pesticides and other agrochemicals (ICS Code: 65.100)</i> <b>ICS codes: 65.100 (Pesticides and other agrochemicals);</b> <b>Draft Commission Implementing Regulation amending Implementing Regulations (EU) No 2015/1295 and No 540/2011 as regards the conditions of approval of the active substance sulfoxaflor (Text with EEA relevance)</b> G/SPS/N/EU/515 This draft Commission Implementing Regulation provides that the approval conditions of the active substance sulfoxaflor are amended in accordance with Regulation (EC) No 1107/2009 based on the evaluation of confirmatory data as required in Regulation (EU) 2015/1295 of 27 July 2015 approving the active substance sulfoxaflor for use in the European Union. Existing authorised plant protection products containing sulfoxaflor will be reviewed in accordance with the restriction set in this act. This decision however only concerns the placing on the market of this substance. Following restriction of the approval and the consequent expiry of all grace periods for stocks of products, separate legal action will likely be taken on Maximum Residue Levels and a separate notification will be made in accordance with SPS procedures in due time. This draft Commission Implementing Regulation was also notified under the TBT Agreement in notice G/TBT/N/EU/853.

*Embriones de bovinos*

22/01/22

**Fija exigencias sanitarias para la internación de embriones bovinos a Chile y deroga las Resoluciones que indica G/SPS/N/CHL/706** Se fijan exigencias sanitarias para importar a Chile embriones bovinos, destacándose: Para su identificación- Los embriones de bovinos que se importen al país deben contar con la información indicada en el Resuelvo I del proyecto de Resolución. Del país o zona de procedencia- El país o zona de procedencia está declarado oficialmente libre de fiebre aftosa y pleuroneumonía contagiosa bovina ante la Organización Mundial de Sanidad Animal (OIE) y reconocida por Chile esta condición sanitaria.- El país o zona cumple con las condiciones de la OIE, para ser considerado libre de las siguientes enfermedades: dermatosis nodular contagiosa, enfermedad, hemorrágica epizoótica, septicemia hemorrágica, fiebre del Valle del Rift, y esta condición sanitaria ha sido evaluada favorablemente por Chile.- El país o zona tiene una categoría de riesgo insignificante de EEB, situación reconocida por la OIE y en concordancia con las directrices de la OIE en esta materia. Del semen - El semen usado para producción de embriones cumplen con los requisitos sanitarios exigidos por Chile. De la donante- Ha nacido o ha permanecido ininterrumpidamente en el país, a lo menos, seis meses antes de la recolección de embriones con destino a Chile. - Ha sido inspeccionada el día de la recolección encontrándose libre de evidencias de enfermedades infectocontagiosas y no ha sido expuesta en el tiempo establecido en este punto. - El predio de origen de la donante está oficialmente libre de brucelosis y tuberculosis. - En el predio de origen, no se han presentado evidencias clínicas de enfermedades infectocontagiosas, durante el tiempo determinado en este punto. De los embriones - Los embriones fueron recolectados y procesados en las condiciones establecidas en este proyecto de resolución. - El grupo de recolección no ha operado durante el proceso en zonas infectadas con las enfermedades que constan en la lista de enfermedades de la OIE. - El proceso de obtención, procesamiento, almacenaje y transporte, se realizó de acuerdo a los procedimientos aprobados por la Sociedad Internacional de Tecnología de Embriones (IETS) y recomendados por la OIE. - Se colocaron en pajuelas, las que se marcaron e identificaron de

acuerdo al punto 1. del proyecto de resolución. Almacenaje y transporte- Los embriones se almacenaron y son manipulados bajo las condiciones mencionadas en este punto del proyecto resolución. Certificación sanitaria- La importación al país deben venir amparados de un certificado sanitario oficial, emitido por la Autoridad Sanitaria Oficial del país de origen, en el cual se debe estipular el cumplimiento de las exigencias sanitarias establecidas en esta resolución. Para mayor detalle revisar el documento adjunto a esta notificación.

Emergency  
measure

**United Arab Emirates is imposing a temporary ban on the importation of domestic and wild birds and their untreated by-products from Ireland**

G/SPS/N/ARE/243 Following the notification published by the World Organisation for Animal Health (OIE) regarding the outbreak of Highly Pathogenic Avian Influenza virus (HPAI) in the Monaghan County in Ireland, the United Arab Emirates is applying a precautionary sanitary measure to prevent the risk of introducing HPAI virus through the imports of live birds and their products from the Monaghan County in Ireland. These measures include: 1- Temporary ban on the importation of domestic and wild birds and their untreated by-products and day-old chicks and hatching eggs from Ireland to the United Arab Emirates; 2- Applying the "mechanism of importing falcons from high-risk countries" on importing from Ireland; 3- Continue to allow the importation of heat-treated poultry products (treated meat and treated egg products) in addition to the heat-treated by-products from all regions in Ireland; 4- Allow the entry of consignments of unheat-treated poultry meat and table eggs from areas (according to the first administrative division (County)) that are not infected, according to the currently used health certificate models, provided that the competent authorities of the country of export send a health statement: "The imported products were produced (and packed) from live poultry from a facility (farm/slaughterhouse/packing facility) in an area (defined within a 25 km radius around the facility) in which no highly pathogenic avian influenza (HPAI) have been recorded for a period of no less than 28 days prior to exportation with the application of the destruction policy or for a period of no less than 12 months prior to export without applying the policy of destruction; 5- Consignments of unheat-treated poultry meat and table eggs and its products from the Monaghan County are not allowed to be exported to the United Arab Emirates.
