*Hand dishwashing liquid (HS code(s): 3402); (ICS code(s): 71.100.40)* 09/08/2022

**Standards Decree (Fourth Amendment) 5782-2022;**

Following the new import regime notified in G/TBT/N/ISR/1216 and G/TBT/N/ISR/1219 on 26 August 2021, a draft Fourth Annex to the Standards Decree was published by Israel's Minister of Economy and Industry. This Fourth Annex allows the import of hand dishwashing liquid, subject to the Israel Mandatory Standard SI 139 and that complies with the European Regulations EC 1272/2008 and EC 648/2004, to be imported into Israel based on an importer's declaration of conformity, with the following pro-conditions:

- Borax content of up to 0.5 g/kg product, in accordance with the Israel Standard SI 692;
- A test report according to Appendix A of the Israel Standard SI 139 shall be added to products with pH higher than 10 or lower than 4.

The importer shall attach the following documentation to the DoC in his import application:

- Updated product Safety Sheet;
- Manufacturer's documents or Compliance Certificate to EC 1272/2008 proving that the marking, marking resistance, and packaging are compatible with the Safety Sheet;
- Certificate for compliance with EN ISO 8317 for child-resistant packaging, when required according to EC 1272/2008;
- A statement that the product does not belong to a subcategory (H314)A1 according to EC 1272/2008 or that the product's ingredients concentration according to which the A1 classification in the subcategory was determined shall not exceed the SCL values of each ingredient as defined in this regulation;
- Marking of the chemical composition according to EC 648/2004;
- Declaration on biodegradability compliance of the surface active materials according to EC 648/2004.

**Protection of Stratospheric Ozone: Listing of Substitutes Under the Significant New Alternatives Policy Program in Refrigeration, Air Conditioning, and Fire Suppression;** Pursuant to the U.S. Environmental Protection Agency's Significant New Alternatives Policy program, this action proposes to list certain substances as acceptable subject to use conditions in the refrigeration and air conditioning sector for chillers--comfort cooling, residential dehumidifiers, non-residential dehumidifiers, residential and light commercial air conditioning and heat pumps, and a substance as acceptable subject to use conditions and narrowed used limits in very low temperature refrigeration. Through this action, EPA is proposing to incorporate by reference standards which establish requirements for electrical air conditioners, heat pumps, and dehumidifiers, laboratory equipment containing refrigerant, safe use of flammable refrigerants, and safe design, construction, installation, and operation of refrigeration systems. Additionally, this action proposes to list certain substances as acceptable subject to use conditions in the fire suppression sector for certain streaming and total flooding uses. Finally, EPA requests advance comment on potential approaches to SNAP listing decisions for very short-lived substances that have ozone depletion potentials similar to those of ozone-depleting substances scheduled to be phased out.
